

Customer: SRDC

- **Task:** Researchers and product managers required access to policy and program data when in the field and when internet access is not available.
- **Solution with WICKSoft:** Research papers, spreadsheets and PowerPoint documents located on network file servers are readable via the BlackBerry and can also be sent via email.
- **Value:** Immediate access to documents has reduced downtime and travel requirements while improving efficiency.
- **Quote:** “WICKSoft is one of the biggest reason we remain committed to the BlackBerry platform, and has made a significant difference to the effectiveness of our mobile users.” – Dan Doyle, Director of Corporate Service, SRDC

Industry: Not-for-profit

Platform: Windows file server

Use case: Document access
